Inspection Details

Field	Value
Inspection ID	INS-PRG-AIT601-001
Asset tag	AIT-601
Asset type	pH/pollutant analyser
Drawing ID	PCP-PID-005
Inspector role	Instrument Technician

Scope

Review the fictional record links and labelling context for AIT-601 and related AAH-601 documentation.

Observations

The P&ID tag and analysis-context label are available. A fictional inspection attachment is missing a reviewer name, so it remains a proposed evidence item. No calibration, threshold, analyser performance, or alarm conclusion is recorded.

Finding and Follow-Up

Severity: Needs Review

Recommended follow-up: Add the reviewer identity and source location before accepting the attachment as verified evidence.

Review Status

Draft for Human Review. This is a synthetic inspection scenario, not a confirmed plant finding.
