Purpose

Provide a fictional demo reference for checking that a boiler-house maintenance information package is complete before a review or handover. This excerpt does not authorise maintenance or operation of equipment.

Scope

Applies to the evidence context for B-501, P-501, and PSV-501 on PCP-PID-004.

Required Evidence

- Current drawing reference for the asset context.
- Available maintenance, inspection, and handover document references.
- Identification of missing vendor records, unreadable scans, or incomplete document metadata.
- Confirmation that an internal reviewer owns open documentation actions.

Handover Checklist

- Verify that document references use the approved asset tags.
- Record the review state for each supporting document.
- Confirm that the next responsible role can open the linked source evidence.
- Preserve questions as questions; do not convert them into technical conclusions.

Escalation and Recording Expectations

Any maintenance activity, safety decision, or equipment action remains subject to approved site processes. Use this excerpt only to document evidence completeness and ownership.
