Purpose

Provide a fictional demo reference for documenting an abnormal-condition discussion and escalating missing information. This excerpt is not an emergency procedure and contains no control instructions.

Scope

Applies to evidence-recording context for R-201, C-301, and ETP-601 across the approved Pragyan P&IDs.

Required Evidence

- Affected asset tags and drawing IDs.
- Time of the observation or discussion.
- Available source records and their review state.
- Explicit list of missing documents, unclear OCR text, or unresolved asset links.
- Internal role responsible for the next evidence review.

Handover Checklist

- Confirm that each claim is linked to a source drawing or document region.
- Separate observed facts from open questions and proposed links.
- Record a concise handover summary with source references.
- Keep the source record available for the receiving role.

Escalation and Recording Expectations

For an actual plant condition, follow approved site emergency and

escalation processes. This synthetic excerpt only supports record quality, evidence traceability, and internal review routing.
